CIMNE

Master on Numerical Methods in Engineering

ACCEPTANCE OF INTERNSHIP WORK PLAN

Name of the student	Xavier Corbella Coll

Company/Institution/ Department	COMSOL AB
Name of the external supervisor	Ed Fontes
Start and end dates	June 7 – September 7, 2016
Total number of hours	528

Topic:
Main tasks: - Research and define mathematical models involving several physical phenomena. - Set up the mathematical models in a modeling and simulation software that defines and solves the corresponding numerical models. - Build custom interfaces (apps) based on the generated numerical models

Additional remarks: -

Any change in the information contained in the internship agreement must be authorized by the local master coordinator.

Date: 07/04/2016

Student's signature   External supervisor'signature   Antonia Larese
